Gonzolo Llambi guided me personally. He spoke fluent English which made is very easy to communicate. (As I only know a few Spanish words) He was an excellent guide and knew his game animals and their habits very well. He was very careful to keep the pace at my level of physical capability (I'm in my late 60's). I liked the fact that he used a range finder while we were stalking so it made it much easier to judge where to aim on longer shots. He has a very outgoing and pleasant manner. It was a real pleasure to hunt with him. My wife and I felt like we went there as strangers and left as friends. Gonzolo Llambi is the outfitter. I can only praise him and the excellent service he and his organization provided. It is important to note that both he and his two professional hunters that I met speak very good English. The logistical support from pick up at the airport to hotel on first night of arrival and transport back to hotel on day before departure and return to the airport the next evening was expertly organized and executed. His drivers/staff were very pleasant and efficient. The staff at Estancia Acelain were very pleasant, helpful and efficient.

The cleanliness and order were commendable. The daily laundry was normally back on the same day, very well done. This is probably the best camp I have lived in during my many years of hunting. His recommendations on what to do in Buenos Aries and sightseeing were very helpful. His help and guidance prior to the hunt made it very easy to get my Rifles and ammunition imported/exported into/out-of Argentina with a minimum of delay.

OVERALL ASSESSMENT

Problems of Hunt:

Highlights of Hunt: This was my wife's and my first time to visit South America. It was fantastic! (I have hunted extensively in Africa, North America and Europe). My wife accompanied me as an observer and she loved it. The hunting on horseback was a treat for this ole Montana raised boy. The saddles are a bit different from our western saddle, but maybe we can learn something there. They were very comfortable. The horses were outstanding and a pleasure to ride. They were well trained, and handled the saddle scabbard without fuss. We saw a lot of beautiful country on horseback that we wouldn't have seen from a vehicle and certainly wouldn't have been able to cover as much ground if on foot.

Would You Recommend This Hunt to a Friend? Yes

Equipment Recommendations: I used a Blaser R93 Rifle with .416 Rem Mag and .300 Win Mag barrels. I took 20 rounds for each loaded with Barnes X bullets. Ranges where trophies taken was from 50-300 meters.

Optics: Leupold scopes for both rifle barrels. My binos are Zeiss 10x40_s. Rangefinder was a Leupold. I also used an adjustable shooting stick.

Why: ABSOLUTEY YES !!! This was one of the best organized and executed hunting operations that I have experienced.
