OVERALL ASSESSMENT

Problems of Hunt:

Highlights of Hunt: *(availability of game may be rated as abundant, average or scarce)(services may be rated as excellent, good, fair or poor)* Taking a very old mature buffalo bull. Hunting trophy boar in a challenging environment.

Place of Hunt: Argentina

Report ID: 7323

On the fifth day of the hunt my wife developed kidney stones. The outfitter immediately got us to the nearest hospital. He took control of the situation and made sure the hospital gave my wife the best care possible. Because of his genuine concern this medical condition did little to interrupt our hunt. We were back at the ranch that same evening and I was able to continue my hunt the following day.

Would You Recommend This Hunt to a Friend? Yes

Equipment Recommendations: None. If needed the outfitter has excellent firearms for rent.

Why: First Class accommodations. Plenty of game. Quality trophies. Excellent staff and hunting personnel. This outfitter is as good as any that I have hunted with on four continents.
